1. Nature of Operations

PrairieSky Royalty Ltd. ("PrairieSky" or the "Company") has a geologically and geographically diverse portfolio of fee simple mineral title ("Fee Lands"), lessor interests in and to leases that are currently issued in respect of certain Fee Lands ("Lessor Interests"), crude oil and natural gas overriding royalty interests, gross overriding royalty interests, net profit interests and production payments on lands (collectively, "GORR Interests") and other acreage spanning Alberta, Saskatchewan, British Columbia and Manitoba (collectively, the "Royalty Properties"). The Company is focused on encouraging third parties to actively develop the Royalty Properties, while strategically seeking additional petroleum and natural gas royalty assets that provide the Company with medium-term to long-term value enhancement potential. The Company does not directly conduct operations to explore for, develop or produce petroleum or natural gas; rather, third-party development of the titled or leased lands provides the Company with royalty revenue as petroleum and natural gas are produced from such properties.

The Company's shares are publicly traded on the Toronto Stock Exchange ("TSX") under the stock symbol "PSK". The location of the head and registered office of the Company is Suite 1700, 350 - 7th Avenue S.W., Calgary, Alberta, T2P 3N9.

2. Basis of Presentation

A) STATEMENT OF COMPLIANCE

These unaudited interim condensed consolidated financial statements (the "financial statements") have been prepared in accordance with International Accounting Standard ("IAS") 34, "Interim Financial Reporting" and should be read in conjunction with the audited annual consolidated financial statements for the year ended December 31, 2020. They do not include all of the information required for a complete set of IFRS financial statements; however, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes to the Company's financial position and performance since the last annual financial statements.

These financial statements have been prepared on a historical cost basis, except for share-based payment transactions. The financial statements have been prepared on a going concern basis and amounts are in millions of Canadian dollars unless otherwise stated.

These financial statements were authorized for issuance by the Company's Audit Committee on October 25, 2021.

B) ESTIMATES

The timely preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses during the period. Actual results may differ from these estimates.

During the first quarter of 2020, the World Health Organization declared the novel coronavirus (COVID-19) outbreak a global pandemic prompting many countries around the world to close international borders, place restrictions on travel and force closures for certain types of public places and businesses that were deemed non-essential, causing significant disruption to global economies. Although health measures have eased, vaccination programs are well underway, and economies are opening, the timing of a full economic recovery remains uncertain. Management has incorporated the anticipated impacts of COVID-19 and the economic recovery in its estimates and assumptions at period end.

In preparing these financial statements, the judgments made by management in applying the Company's accounting policies and the key sources of significant estimation uncertainty were the same as those applied to the audited annual consolidated financial statements as at and for the year ended December 31, 2020.

3. Accounts Receivable and Accrued Revenue

	As at September 30, 2021	As at December 31, 2020
Trade receivables and accrued royalty revenue	\$ 44.2	\$ 28.3
Allowance for doubtful accounts	(0.2)	(1.1)
	\$ 44.0	\$ 27.2

Trade receivables and accrued royalty revenue relate to lease and royalty production payments receivable.

The analysis of accounts receivable and accrued royalty revenue that are past due but not impaired is as follows:

	Total	Neither past due nor impaired	Past due but not impaired	
			4 - 6 Months	7 - 12 Months
As at September 30, 2021	\$ 44.0	\$ 44.0	\$ -	\$ -
As at December 31, 2020	\$ 27.2	\$ 27.2	\$ -	\$ -

In determining the recoverability of trade receivables that are past due but not impaired, the Company considers the age of the outstanding receivables and the credit worthiness of the counterparties. Refer to Note 15 for further information about credit risk.

For the three and nine months ended September 30, 2021, royalty assets acquired were \$60.2 million (three months ended September 30, 2020 - \$nil) and \$80.5 million (nine months ended September 30, 2020 - \$4.7 million), respectively. Royalty asset acquisitions for the three months ended were comprised of a gross overriding royalty on land in the Marten Hills area of Alberta (The "Marten Hills Acquisition") for \$34.2 million

and the acquisition of producing Lessor Interests and GORR Interests primarily in Central Alberta for \$26.0 million.

In addition to the acquisitions described above, during the nine months ended September 30, 2021, the Company completed the acquisition of a portfolio of Fee Lands and GORR Interests across Western Canada, of which \$19.7 million was attributed to royalty assets.

5. Exploration and Evaluation ("E&E") Assets

Transfers to royalty assets	(Note 4)		(28.3)
Land expiries			(6.3)
Balance, September 30, 2021		\$	1,452.2

For the three and nine months ended September 30, 2021, the Company acquired \$129.9 million (three months ended September 30, 2020 - \$nil) and \$161.3 million (nine months ended September 30, 2020 - \$2.0 million), respectively. For the three months ended September 30, 2021, additions to E&E assets included \$120.8 million of value attributed to undeveloped drilling locations on current and future phases of the Marten Hills Acquisition and \$8.0 million related to Fee Lands and GORR Interests on non-producing assets primarily in Central Alberta.

In addition to the acquisitions described above, during the nine months ended September 30, 2021, the Company attributed \$24.3 million to E&E assets related to the acquisition of a portfolio of Fee Lands and GORR Interests, as well as seismic, across Western Canada.

For the three and nine months ended September 30, 2021, \$1.8 million (three months ended September 30, 2020 - \$0.6 million) and \$6.3 million (nine months ended September 30, 2020 - \$4.9 million), respectively, of costs associated with expired Crown mineral leases and GORR Interests were recognized as an expense. The expense will vary period to period as a result of the timing of lease expiries, if any.

6. Bank Debt

	As at September 30, 2021	As at December 31, 2020
Bank debt	\$ -	\$ 42.9
Long-term bank debt	181.1	-
Unamortized debt transaction costs	(1.2)	-
Total debt	\$ 179.9	\$ 42.9

Concurrent with the closing of the Marten Hills Acquisition on July 19, 2021, the Company expanded its extendible revolving credit facility with a syndicate of Canadian banks to \$200 million from \$150 million with no change to the \$25 million operating facility (both facilities together defined as the "Credit Facility"), for a total of \$225 million.

On September 29, 2021, the Company further expanded the Credit Facility to \$425 million and extended the maturity date from January 30, 2023 to February 28, 2025. The Credit Facility has a permitted increase to \$500 million, subject to lender consent, and, subject to certain requirements, may be extended on an

annual basis. In conjunction with the expansion and extension, the Company added a sustainability-linked pricing mechanism as further described below.

At September 30, 2021, \$181.1 million was drawn on the Credit Facility (December 31, 2020 - \$42.9 million). The effective interest rate for the three and nine months ended September 30, 2021 was 1.9% (three months ended September 30, 2020 - 2.1%) and 2.0% (nine months ended September 30, 2020 - 2.8%), respectively.

The Credit Facility includes borrowing options of Canadian prime rate-based advances, U.S. base rate advances, bankers' acceptances and letters of credit, and will bear interest on a variable grid based on certain financial ratios, over the prevailing applicable rate for the type of loan. As part of the aforementioned extension, the Company amended the Credit Facility to include a sustainability-linked pricing mechanism which may reduce or increase borrowing costs by a maximum of 5 basis points based on the Company's environmental, social and governance ("ESG") performance, determined by a third-party ESG rating agency. The Credit Facility is unsecured and does not have a borrowing base restriction.

The Credit Facility has three financial covenants, whereby the Company's ratio of adjusted consolidated senior debt to EBITDA for the trailing 12 months will not exceed 3.5:1.0, adjusted consolidated total debt to EBITDA for the trailing 12 months will not exceed 4.0:1.0, and the adjusted consolidated total debt to capitalization ratio will not exceed 55%. EBITDA used in the covenant calculation is net earnings adjusted for non-cash items, interest expense and income taxes. All covenants are calculated as at, and for the 12 months ending September 30, 2021. As at September 30, 2021, the Company was compliant with all covenants provided for in the lending agreement.

For the three and nine months ended September 30, 2021, non-cash interest expense of \$21,000 (three months ended September 30, 2020 - \$28,000) and \$68,000 (nine months ended September 30, 2020 - \$90,000), respectively, was recognized relating to lease obligations.

Total cash outflows for the three months ended September 30, 2021 of \$0.4 million (three months ended September 30, 2020 - \$0.4 million) included variable lease payments and lease liability payments. Variable lease payments for the three months ended September 30, 2021 of \$0.2 million (three months ended September 30, 2020 - \$0.2 million) were recognized in administrative expense and were included in operating activities in the consolidated statements of cash flows. Lease liability payments for the three months ended September 30, 2021 of \$0.2 million (three months ended September 30, 2020 - \$0.2 million) were included in financing activities in the consolidated statements of cash flows.

Total cash outflows for the nine months ended September 30, 2021 of \$1.2 million (nine months ended September 30, 2020 - \$1.2 million) included variable lease payments and lease liability payments. Variable lease payments for the nine months ended September 30, 2021 of \$0.6 million (nine months ended September 30, 2020 - \$0.6 million) were recognized in administrative expense and were included in operating activities in the consolidated statements of cash flows. Lease liability payments for the nine months ended September 30, 2021 of \$0.6 million (nine months ended September 30, 2020 - \$0.6 million) were included in financing activities in the consolidated statements of cash flows.

9. Share Capital

AUTHORIZED

The authorized share capital of the Company includes an unlimited number of common shares and an unlimited number of preferred shares issuable in series. The holders of the common shares are entitled to one vote in respect of each common share held at all meetings of shareholders, except meetings at which only holders of a specified class of share have the right to vote. The common shares have no par value.

NORMAL COURSE ISSUER BID ("NCIB")

On May 20, 2021, the Company announced the approval of the renewal of its NCIB by the TSX. The NCIB allows the Company to purchase for cancellation up to a maximum of 15,135,000 common shares over a twelve-month period which commenced on May 25, 2021 and expires no later than May 24, 2022.

During the three months ended September 30, 2021, the Company purchased for cancellation 586,900 common shares (three months ended September 30, 2020 - 8,866,991 common shares) at an average cost of \$13.71 per common share (three months ended September 30, 2020 - \$9.22 per common share) for total consideration of \$8.0 million (three months ended September 30, 2020 - \$81.8 million). The total cost paid, including commissions and fees, was charged to share capital as there was no excess paid over the average carrying value of the common shares purchased and thus \$nil (three months ended September 30, 2020 - \$nil) was charged to the deficit for the period.

During the nine months ended September 30, 2021, the Company purchased for cancellation 1,567,900 common shares (nine months ended September 30, 2020 - 9,770,691 common shares) at an average cost of \$13.52 per common share (nine months ended September 30, 2020 - \$9.30 per common share) for total consideration of \$21.2 million (nine months ended September 30, 2020 - \$90.9 million). The total cost paid, including commissions and fees, was charged to share capital as there was no excess paid over the average carrying value of the common shares purchased and thus \$nil (nine months ended September 30, 2020 - \$0.2 million) was charged to the deficit for the period.

DIVIDENDS

During the three months ended September 30, 2021, PrairieSky declared dividends of \$20.0 million (three months ended September 30, 2020 - \$13.4 million) or \$0.09 per common share (three months ended September 30, 2020 - \$0.06 per common share).

During the nine months ended September 30, 2021, PrairieSky declared dividends of \$49.0 million (nine months ended September 30, 2020 - \$72.7 million) or \$0.22 per common share (nine months ended September 30, 2020 - \$0.315 per common share).

On September 7, 2021, the Board of Directors declared a quarterly dividend of \$0.09 per common share or \$20.0 million payable on October 15, 2021 to common shareholders of record on September 30, 2021.

10. Share-based Compensation Plans

The Company has a number of share-based compensation arrangements under which the Company awards various types of long-term incentive grants to eligible employees, officers and directors. They include stock options, performance share units ("PSUs"), restricted share units ("RSUs"), officer deferred share units ("ODSUs") and deferred share units ("DSUs").

The Company accounts for stock options granted to Company employees and officers as equity-settled share-based payment transactions and accrues compensation costs over the vesting period based on the fair values determined at the grant date.

The Company accounts for its PSUs, RSUs, ODSUs and DSUs, held by Company employees, officers and directors as cash-settled share-based payment transactions and accrues compensation costs and dividends over the vesting period based on the fair value at each reporting date.

The Company has recognized the following share-based compensation costs:

	Three months ended September 30		Nine months ended September 30	
	2021	2020	2021	2020
Compensation costs of transactions classified as equity-settled	\$ 0.1	\$ 0.2	\$ 0.4	\$ 0.8
Compensation costs of cash-settled transactions	0.3	0.4	7.7	0.1
Total share-based compensation expense	\$ 0.4	\$ 0.6	\$ 8.1	\$ 0.9

The Company has recognized the following liability for share-based payment transactions:

	As at September 30, 2021	As at December 31, 2020
Liability for unvested cash-settled plans	\$ 7.0	\$ 2.5
Liability for vested cash-settled plans	5.1	2.6
Liability for cash-settled plans	\$ 12.1	\$ 5.1

There were no Company payouts related to share-based compensation in the three months ended September 30, 2021 or September 30, 2020. Company payouts related to share-based compensation during the nine months ended September 30, 2021 were \$0.7 million (nine months ended September 30, 2020 - \$1.7 million). As at September 30, 2021, \$7.4 million (December 31, 2020 - \$3.2 million) of the liability for cash-settled plans, which represents the value of the PSUs, RSUs and DSUs that are vested or will vest in the next twelve months, is included in accounts payable and accrued liabilities. The liability for vested cash-settled DSUs held by non-executive directors of \$5.1 million (December 31, 2020 - \$2.6 million) included in accounts payable and accrued liabilities may or may not be paid in the next twelve months as it only becomes payable when a director is no longer a member of the Board. The remaining \$4.7 million (December 31, 2020 - \$1.9 million) is a long-term liability and is reported as share-based compensation payable.

A) STOCK OPTIONS

The Company has a Stock Option Plan that provides for granting of stock options to officers and certain employees. Stock options vest annually on their anniversary date over a three-year period and expire five years after the date of the grant.

The following table summarizes the change in stock options outstanding:

	Number (thousands)	Weighted average exercise price (\$)

For the three and nine months ended September 30, 2021, administrative expense includes \$0.1 million (three months ended September 30, 2020 - \$0.2 million) and \$0.4 million (nine months ended September 30, 2020 - \$0.8 million), respectively, of compensation costs related to stock options.

B) PERFORMANCE SHARE UNITS

PSUs granted to officers prior to December 31, 2020 entitle the officer to receive upon vesting a cash payment that is equal to the value of one common share of the Company for each PSU held, plus accrued dividends over the period from the date of grant to vesting, or the equivalent number of shares at the election of the Company. The Company may make an election to settle vested PSUs granted prior to December 31, 2020 with either a cash payment equal to the five-day weighted average trading price for the common shares multiplied by the number of vested PSUs or issue the number of common shares. For PSU grants on January 1, 2021, a new long-term incentive plan was adopted so that PSUs granted subsequent to December 31, 2020 may only be settled with a cash payment, and not common shares, equal to the five-day weighted average trading price for the common shares multiplied by the number of vested PSUs. PSUs vest following the completion of a three-year performance period provided the officer remains actively employed with the Company on the vesting date and certain performance criteria are met.

The ultimate value of the PSUs will depend upon the Company's performance relative to predetermined corresponding performance targets measured over a three-year period. Performance is based on the Company's total shareholder return ("TSR"), defined as share price appreciation plus dividends, relative to the TSR for a predetermined performance peer group. The Board has adopted a multiple performance criteria methodology, including TSR, for measuring the payout multiplier upon vesting of the PSUs. Based on this assessment, a range of zero to two times the original PSU grant, at the discretion of the Board of Directors, may be eligible to vest in respect of the three-year trailing period being measured.

The following table summarizes information related to the PSUs:

<i>Outstanding PSUs (thousands of units)</i>

For the three and nine months ended September 30, 2021, the Company recorded a compensation expense of \$0.5 million (three months ended September 30, 2020 - \$0.4 million) and \$3.3 million (nine months ended September 30, 2020 - \$0.4 million), respectively, related to outstanding PSUs. The market common share price used in the PSU fair value calculation at September 30, 2021 was \$13.51 (September 30, 2020 - \$8.31). The remaining weighted average life is 1.4 years.

C) RESTRICTED SHARE UNITS

RSUs granted to eligible employees prior to December 31, 2020 entitle the employee to receive upon vesting a cash payment that is equal to the value of one common share for each RSU held, plus accrued dividends over the period from the date of grant to vesting, or the equivalent number of shares at the election of the Company. The Company may make an election to settle vested RSUs granted prior to December 31, 2020 with either a cash payment equal to the five-day weighted average trading price for the common shares multiplied by the number of vested RSUs or issue the number of common shares. For RSU grants on January 1, 2021, a new long-term incentive plan was adopted so that RSUs granted subsequent to December 31, 2020 may only be settled with a cash payment, and not common shares, equal to the five-day weighted average trading price for the common shares multiplied by the number of vested RSUs. RSUs vest evenly over a three-year period, provided the employee remains actively employed with the Company on the vesting date.

The following table summarizes information related to the RSUs:

<i>Outstanding RSUs (thousands of units)</i>

For the three and nine months ended September 30, 2021, the Company recorded compensation expense of \$0.2 million (three months ended September 30, 2020 - \$0.1 million) and \$1.0 million (nine months ended September 30, 2020 - \$0.2 million), respectively, related to outstanding RSUs. The market common share price used in the RSU fair value calculation at September 30, 2021 was \$13.51 (September 30, 2020 - \$8.31). The remaining weighted average life is 1.0 years.

D) OFFICER DEFERRED SHARE UNITS

ODSUs have been granted to officers of the Company and entitle the officer to receive, upon departure from the Company, a cash payment that is equal to the value of one common share for each vested ODSU held, plus accrued dividends over the period from the date of grant to the date vested ODSUs are redeemed, which must be within 15 business days of the officer's departure from the Company. The cash payment to the officer is to be paid, at the Company's discretion, no later than December 31 of the first calendar year commencing after the date of the officer's departure.

ODSUs are settled in a cash payment equal to the five-day weighted average trading price for the common shares multiplied by the number of settled ODSUs, as further described below. ODSUs vest evenly over a three-year period, provided the employee or officer remains actively employed with the Company on the vesting date. ODSUs are not paid and/or settled until such time as the officer ceases to be an employee of the Company.

The following table summarizes information related to the ODSUs:

Outstanding ODSUs (thousands of units)

Issued and Outstanding, December 31, 2019	-
Granted	40.3
Units, in lieu of dividends	1.6
Issued and Outstanding, December 31, 2020	41.9

Issued and Outstanding, September 30, 2021	164.8

For the three and nine months ended September 30, 2021, the Company recorded compensation expense of \$0.2 million (three months ended September 30, 2020 - \$nil) and \$0.9 million (nine months ended September 30, 2020 - \$0.1 million), respectively, related to outstanding ODSUs. The market common share price used in the ODSU fair value calculation at September 30, 2021 was \$13.51 (September 30, 2020 - \$8.31).

E) DEFERRED SHARE UNITS

Directors receive an annual compensation amount in DSUs and have the option to receive Board and Committee retainers and fees in the form of DSUs, which vest immediately. These DSUs are equivalent to a common share plus accrued dividends over the period from date of grant and vesting to the date of redemption and are settled in cash. DSUs can only be redeemed following departure from the Company and must be redeemed prior to December 15th of the year following departure. For the nine months ended September 30, 2021, the majority of the directors elected to receive their annual Board and Committee retainers and fees in the form of DSUs.

DSUs are settled in a cash payment equal to the five-day weighted average trading price for the common shares multiplied by the number of settled DSUs, as further described below. DSUs are fully vested as of the grant date. DSUs are not paid and/or settled until such time as the director ceases to be a director of the Company.

The following table summarizes information related to the DSUs:

<i>Outstanding DSUs (thousands of units)</i>	
Issued and Outstanding, December 31, 2019	174.5
Granted	71.1
Units, in lieu of dividends	10.1
Issued and Outstanding, December 31, 2020	255.7
Granted	114.5
Units, in lieu of dividends	5.8
Issued and Outstanding, September 30, 2021	376.0

For the three and nine months ended September 30, 2021, the Company recorded a compensation recovery of \$0.6 million (three months ended September 30, 2020 - recovery of \$0.1 million) and expense of \$2.5 million (nine months ended September 30, 2020 - recovery of \$0.6 million), respectively, related to outstanding DSUs. The market common share price used in the DSU fair value calculation at September 30, 2021 was \$13.51 (September 30, 2020 - \$8.31).

11. Revenues

The Company's royalty production revenue is determined pursuant to the terms of its royalty agreements. The transaction price for crude oil, NGL and natural gas is based on the commodity price in the month of production, adjusted for quality, location, allowable deductions, if any, or other factors. Commodity prices are based on market indices that are determined on a monthly or daily basis.

Royalty production revenue is generally received two months after the crude oil, NGL, and natural gas are produced. For royalty production volumes taken-in-kind, revenue is typically collected on the 25th day of the month following production. Lease rental revenue for the entire primary term is recorded when the lease is executed. Lease rental revenue for any subsequent period is recorded as due which is generally annually on the anniversary of the lease extension. Both the amount and timing of bonus consideration revenue can vary significantly from period to period as it is recorded when a new lease is executed and relates to the unique circumstances of each lease transaction.

Royalty Production Revenue by Product	Three months ended September 30		Nine months ended September 30

At September 30, 2021, receivables from contracts with customers, which are included in accounts receivable and accrued royalty revenue, totaled \$44.0 million (December 31, 2020 - \$27.2 million). For the nine months ended September 30, 2021, the Company recorded \$3.0 million (September 30, 2020 - \$7.9 million) of royalty production revenue relating to prior periods. The performance obligations for these prior period adjustments were satisfied in production periods prior to the current year, but were reported in the current year once collection risk was mitigated.

12. Administrative Expenses

	Three months ended September 30		Nine months ended September 30

The Company has not recognized taxable temporary differences of \$155.0 million related to the excess of the carrying value of net assets over the tax pools acquired on asset acquisitions that were not a business combination during the nine months ended September 30, 2021 and were therefore subject to the initial recognition exemption under IAS 12 "Income Taxes."

14. Capital Management

The Company's objective when managing its capital structure is to maintain financial flexibility in order to distribute cash to shareholders in the form of dividends and share repurchases and cancellations after consideration of the Company's financial requirements for its business and future growth opportunities. As a royalty company, PrairieSky does not have capital expenditure requirements, which enhances its financial flexibility.

The Company's capital structure is comprised of long-term debt, shareholders' equity, and working capital. The Company's capital structure is managed by taking into account operating activities, dividends paid to

shareholders, common share repurchases, taxes, available Credit Facility (Note 6), and other factors. The Company's operating results and capital structure are impacted by the level of development activity by third parties on the Royalty Properties and the resultant royalty production volumes, commodity prices and level of costs incurred by the Company.

	As at September 30, 2021	As at December 31, 2020
Long-term Debt	\$ 179.9	\$ -
Shareholders' equity	2,351.1	2,341.5
Working capital deficiency	7.8	42.0

The Company's capital structure is managed through its financial and operating forecast process. The forecast of the Company's future cash flows is based on estimates of production, crude oil, natural gas and NGL prices, production and mineral tax expense, administrative expenses, current taxes and other investing and financing activities. The forecast is regularly updated based on changes in commodity prices, production expectations and other factors that in the Company's view could impact cash flow. During the nine months ended September 30, 2021, the Company has generated funds from operations of \$171.6 million, repurchased and cancelled shares for \$21.2 million, declared dividends of \$49.0 million, and made royalty acquisitions of \$241.8 million. The Company had a working capital deficiency of \$7.8 million at September 30, 2021, down from \$42.0 million at December 31, 2020, which was inclusive of bank debt. Long-term bank debt at September 30, 2021 was \$179.9 million. The bank debt balance has been reclassified to long-term liabilities as a result of the Credit Facility extension of the maturity date to February 28, 2025. See Note 6. The Company's working capital deficiency includes \$5.1 million (December 31, 2020 - \$2.6 million) related to the liability for vested cash-settled DSUs issued to non-executive directors which may or may not be paid in the next twelve months as it only becomes payable when a director is no longer a member of the Board. Refer to Note 10.

15. Financial Instruments and Risk Management

FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

The fair values of accounts receivable and accrued royalty revenue, accounts payable and accrued liabilities, and dividend payable approximate their carrying amount due to the short-term maturity of those instruments. Bank debt bears interest at a floating market rate with applicable variable margins, and accordingly the fair market value approximates the carrying amount.

RISKS ASSOCIATED WITH FINANCIAL ASSETS AND LIABILITIES

The Company is exposed to financial risks arising from its financial assets and liabilities. Financial risks include market risk (such as commodity price and interest rate risk), credit risk and liquidity risk.

Commodity Price Risk

Commodity price risk is the risk the Company will encounter fluctuations in its future royalty revenue with changes in commodity prices. Commodity prices for crude oil, NGL and natural gas are influenced by global and regional factors, including levels of supply and demand, weather and geopolitical factors. The Company does not hedge its commodity price risk.

Interest Rate Risk

The Company is exposed to interest rate risk on its credit facility. Interest rate risk arises from changes in market interest rates that may affect the fair value or future cash flows from the Company's financial assets or liabilities. Bank debt bears interest at a floating market rate with applicable variable margins.

Credit Risk

Credit risk arises from the potential that the Company may incur a loss if a counterparty to a financial instrument fails to meet its obligation in accordance with agreed terms. A substantial portion of the Company's accounts receivable are from royalty agreements with crude oil and natural gas industry operators and are subject to normal industry credit risks. The Company's diversified revenue stream limits the size of any one property or industry operator with respect to total receivables. In addition, the Company takes certain of its production in-kind to mitigate credit risk and in certain cases, has put a letter of credit in place with the producer.

As at September 30, 2021, there was no counterparty whose accounts receivable individually accounted for more than 10% of the total accounts receivable balance. The maximum credit risk exposure associated with accounts receivable and accrued royalty revenue is the total carrying value.

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulties in meeting a demand to fund financial liabilities as they come due. The Company manages its liquidity risk using cash and debt management programs, including financial forecasting. At September 30, 2021, the Company has unused capacity under its Credit Facility of \$243.9 million. Refer to Note 6.

The timing of expected cash outflows relating to accounts payable and accrued liabilities of \$17.3 million, income tax payable of \$15.5 million and dividend payable of \$20.0 million is less than one year. Included in accounts payable and accrued liabilities is \$5.1 million related to vested cash settled DSUs issued to non-executive directors which may or may not be paid in the next year. Management maintains a conservative approach to debt management that aims to provide financial flexibility with respect to acquisitions and the dividend rate. The Board of Directors reviews and determines the dividend rate after considering expected commodity prices, foreign exchange rates, royalty production volumes, economic conditions, income taxes, and PrairieSky's capacity to fund its expenses and investing opportunities.
